

Set Up Your System

TWENTY MINUTES TODAY, THEN YOU ARE RUNNING

Do these seven things once. You will not have to think about setup again.

1 Unzip your download

You should see a START HERE folder — Calendar, Case Record Form, Master Index, Manual, AI Prompts — and four numbered folders: 01_Case_Management_File, 02_Reference_Library, 03_Exhibit_Production, 04_Backups. That is your entire system.

2 Choose your template format

HTML opens in any browser. PDF is a fillable form. Both do the same thing. Pick one and stick with it.

3 Open the Calendar

Double-click Calendar.html. Click Custody Schedule Setup. Toggle each day between Mine and Theirs, enter your exchange time and location. Save.

4 Open the Master Index

Double-click Court_Ready_Master_Index.xlsx. Go to Lists & Setup and review the factor tags and dropdown options. Your Dashboard is now live.

5 Set up your Reference Library

In 02_Reference_Library, place existing court orders in Court_Orders and your parenting plan in Parenting_Plan. Medical records, school records, attorney documents and contacts go in their named folders.

6 Read Part 1 of the Manual

Ten minutes. It teaches the whole workflow, and every step after this assumes it.

7 Document your first event

Something will happen. Open the Case Record Form. Check the boxes. Write the facts in the three blocks. Save it as a PDF into its event folder. Paste the generated row into the Master Index. Done.

YOU'RE READY

**Ten minutes a day. One event at a time.
The system does the rest.**

DO NOT

Put attorney correspondence in a binder or send it with your exhibits. It is privileged. It stays in 02_Reference_Library/Attorney_Documents and goes nowhere else.

TIP

Scan immediately. Do not photograph evidence and leave it in your camera roll. Scan it, name it, file it, log it. One touch, done.
